

Target: Optical Comb, Inc.

Business Outline: Smart factory business with the development and sales of high precision, non-contact measuring instruments with industrial application of the optical comb technique

Authorized Investment: JPY400 million (maximum)

Date of Announcement: April 16, 2018

- Improve the quality control levels in the manufacturing industry by introducing high precision and high speed inspection equipment.
- Optical comb technology can measure shapes that were previously impossible to measure by existing non-contact sensors
- Contribute to the creation of a smart factory and realize machine learning by acquiring an exhaustive amount of data
