- Management Support

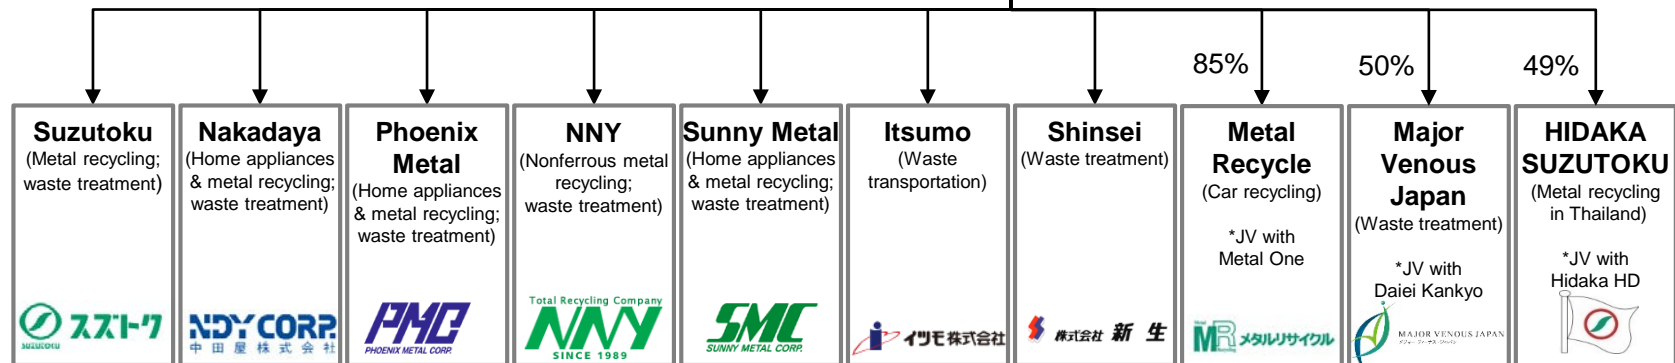

- Investment

- ✓ Japan's leading material recycling company with a history of over 110 years. Promoting industry consolidation and partnering within the Japan's venous industry aiming to create a major Japanese player
- ✓ As the Japan's venous industry, compared to overseas, is fragmented, Rever Holdings Corporation promotes industry consolidation to realize further collaboration with arterial industry businesses, one-stop processing across a wide range of items throughout the country, and overseas expansion

- ✓ Comprehensive business alliance by the following seven companies:
  - Matec
  - Seinan Corporation
  - Yamatake
  - Envipro Holdings
  - Ibokin
  - Chutoku Holdings

- Create a platform company consolidating Japan's venous industry and aiming to become a major global player
