Provision of expertise

• Offshore wind power sector

- ✓ Currently in growth phase: highest growth potential of any source of renewable energy due to strong commitment of governments around the world
- ✓ Bottleneck in supply of installation vessels

• Seajacks

- ✓ Based in the U.K., Seajacks has a strong track record and reputation in the installation of offshore wind turbines
- ✓ Its vessels meet high safety standards and can also service the oil and gas industry

Seajacks-owned vessel Leviathan

Secure key player in the growth sector of offshore wind power with aim of expanding presence of Japanese companies in future
